In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5, 15-20, 27, 30-43, drawn to encryption of program for execution under 713/189.

Group II, claim(s) 6-8, 11-14, are drawn to selective reciprocal authentication under 713/168.

Group IV, claim(s) 21-26, 28-29, are drawn to information processing involving an authentication station under 713/155.

Group V, claim(s) 44, 47-52, are drawn to encryption with multiple keys and key generating under 380/277.

Group III has separate utility such that authentication involves key exchange and random number generation. Group IV relates to an authentication station, performing authentication of data directing. Group V has

separate utility such that information processing includes key management and generation. There is not special technical feature common to the inventions in groups I-V.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
